Suyeon Lee

leesyy.github.io LinkedIn syl4356@kaist.ac.kr / syun@mmai.io

Research Interest

My research focuses on multimodal AI, particularly audio-visual speech processing and source separation. I investigate how cross-modal cues can be leveraged to isolate target signals and improve speech perception in complex acoustic environments, with the goal of building robust multimodal systems for real-world applications.

Education

Korea Advanced Institute of Science and Technology (KAIST) Mar 2025 - Feb 2028 (Expected)
Ph.D. in Electrical Engineering *Advisor: Prof. Joon Son Chung*

Korea Advanced Institute of Science and Technology (KAIST) Mar 2023 - Feb 2025
M.S. in Electrical Engineering *Advisor: Prof. Joon Son Chung*
- Thesis: Multi-modal Speech and Audio Separation System

Korea Advanced Institute of Science and Technology (KAIST) Mar 2018 - Feb 2023
B.S. in Electrical Engineering

Experience

Research Intern Nov 2026 - Apr 2027 (Expected)
Ethical Creative & Protective AI Lab, Sony Group Corporation *Tokyo, Japan*
- Research on multi-modal representation learning centered on audio

Undergraduate Research Intern Mar 2022 - Feb 2023
Multimodal AI Lab, KAIST *Advisor: Prof. Joon Son Chung*
- Studied generative models, specifically diffusion-based models
- Implemented active speaker detection baseline

Research Intern Sep 2021 - Feb 2022
AIRS Company, Hyundai Motor Group *Seoul, South Korea*
- Developed wake word detection baseline model for in-car voice assistant

Undergraduate Research Intern Mar 2021 - Aug 2021
SSSC Lab, KAIST *Advisor: Prof. Hoirin Kim*
- Applied fundamental machine learning principles to develop a baseline speech recognition model

Honors and Awards

NIST Speaker Recognition Evaluation (SRE) 2024
1st Place in the Audio Track and 4th Place in the Audio-Visual Track *San Juan, Puerto Rico*

Skills

Programming: PyTorch, Python, C

Academic Activities

Teaching Assistant Fall 2023, Fall 2025
KAIST - EE488: Deep learning for Computer Vision
- Supported students in coding assignments by offering one-on-one debugging and technical guidance

Languages

Korean: Native

English: Proficient
